

SmartStone Port Elizabeth Colours and Finishes

Our blended colours vary from paver to paver, creating a random organic effect. We recommend viewing a number of sample pavers together in order to perceive the holistic picture of any single colour.

(Feel free to visit our Port Elizabeth Branch, where we will assist you in this regard.)

Due to photographic and printing processes, the colours in this catalogue may not be a 100% accurate.

Concrete is made from natural products which are mined and crushed and the resulting aggregates are never exactly the same colour. These differences do reflect in the final products in the form of slight colour variations. It is therefore advisable to mix pavers from different packs when doing an installation.
